About Me

My name is Nur Rahmat Dwi Riyanto, Senior Mobile Developer Android with more than three years experience of in developing and maintaining Android applications. Experienced in developing applications using Java Server Faces (JSF) Framework and React Native. I also have the experience to integrate CRM (Customer Relationship Management) and Chatbot platform with the government website. I have taken the certification Belajar Fundamental Aplikasi Android at Dicoding and MTA (Microsoft Technology Associate) at Microsoft. I always love to learn new knowledge and can work well as a team member or as an individual. I believe with my experience and knowledge will help a company to move better.
